ABSTRACT

A bilingual education resource guide containing a listing of 142 organizations serving a wide range of purposes and language groups is presented. Information on the organizations, which range from major national associations to community-based groups, includes the name, address, phone number, director, contact person, date of origin, target language group, major purpose, and scope of the organization. Entries are arranged alphabetically by title; indexes to geographic location and target language group appear after the general text of the document. An appendix listing embassies representing languages served by Title VII and by many of the organizations follows the indexes. The organizations were identified by bilingual education administrators, supervisors, and teachers participating in Title VII and non-Title VII programs. A database containing more detailed information about each organization is also maintained. (SW)

INTRODUCTION

Guide to Professional Organizations contains a listing of 142 organizations spanning a varied and wide range of purposes and language groups and running the gamut from major national associations to locally significant, community-based groups. Each listing includes the name, address, phone number, director, contact person, date of origin, target language group, major purpose, and scope of the organization. Entries are arranged alphabetically by title; geographic and language indexes to entry numbers appear after the general text of the document. An appendix listing embassies representing languages served by Title VII and by many of the organizations follows the indexes.

To compile this information, the Clearinghouse asked bilingual education administrators, supervisors, and teachers participating in Title VII and non-Title VII programs to identify organizations which have served as resources and which can contribute to the education of minority language groups. Organizations identified by these educators were subsequently contacted for the more detailed information presented in this directory.

The information compiled in this publication is paralleled by a more detailed record of each organization found in NCBE's database. The abbreviation RS, meaning resource organization, is an internal descriptor designed to distinguish this material in the database. Periodic updates will be made with regular revisions of this document.

The National Clearinghouse for Bilingual Education gratefully acknowledges the efforts of all those who collaborated. Users are invited to submit additions and suggestions for future editions of this publication.
